Consultative Draft

1. Principles of Assessment in Relation to Assessment Malpractice

Assessment is underpinned by the **principles of assessment** including the ***fair*** principle (equal opportunity for all learners) and ***consistent*** principle (consistency in approach to assessment across providers, programmes and modules). As such, in order to ensure the fair and consistent assessment of learners, the following procedures should be followed in relation to the any suspected malpractice cases. The provider's Quality Assurance System overarches these principles and ensures learner achievement is assessed in a fair and consistent way in line with the national standards for the award.

2. Definitions of Assessment System Irregularity and Assessment System Malpractice

It is important to distinguish between **assessment system irregularity** and **assessment system malpractice**. The decision on whether an issue is deemed to be considered an assessment system alleged irregularity or malpractice will relate to the intent, scale or fraudulent nature of the incident by the offender. An issue that may initially be adjudged to be an assessment system irregularity could, after preliminary investigation, be determined to be an alleged malpractice issue. Where such an issue is deemed to be an alleged malpractice, the procedures outlined in this document must be utilised.

2.1. Definition of Assessment System Irregularity

Assessment system irregularities are typically accidental omissions or mistakes which are detected by mechanisms within the assessment system, are corrected, and which do not impact on the validity of the assessment. These could include test administration errors, missing assessment data, errors in transcription etc. which are detected and rectified. All instances of irregularities should be documented and addressed in line with this procedure.

2.2. Definition of Assessment Malpractice

An assessment system malpractice is any act or practice which brings into question the validity or integrity of the assessment process and which normally arises due to one or more non-accidental factors.

Two categories of malpractice exist:

- Learner Malpractice
- Staff Malpractice

2.2.1. Learner Malpractice

Learner Malpractice is defined as malpractice committed by a learner during the course of the assessment process.

Examples of learner malpractice include but are not limited to:

2.2.1.1. Plagiarism

Learner plagiarism is defined as the practice of learners submitting any work for assessment that is not their own original work. This could be any percentage of work that has not been referenced and has been copied from published work, the internet, other learners' work and/or other sources.

Plagiarism in assessment may include but is not limited to:

- Representing work completed by and/or authored by another person (including other learners, family, work colleagues and friends) as their own
- Procuring work from a company or external source including the internet
- Copying work from any source or medium without reference (i.e. website book, journal article)

- Taking a passage of text, or an idea, and summarising it without acknowledging the original source
- Passing off collaborative work as one's own
- Piecing together sections of others' work into a new whole
- Submitting another learner's work with or without their knowledge.

The submission of such plagiarised materials for assessment purposes is fraudulent and all suspected cases will be investigated and dealt with appropriately using the procedures outlined in this document.

Suspected cases of plagiarism will only be investigated when there is a declaration of authenticity which has been signed by the learner. Any electronic assessment submitted is deemed as having been declared as authentic by the learner.

and/or

2.2.1.2. Inappropriate Behaviour

- Unauthorised removal of assessment material from the assessment location
- Deliberate damage to or destroying of assessment related materials
- Use of electronic communication device/technology or other unauthorised materials during the assessment
- Assisting other learners during the assessment
- In an assessment event (e.g. examination), any form of communication with other learners (written, verbal, gestures, expressions, pointing, etc.)
- Collusion by working collaboratively with other learners, beyond what is allowed
- Copying from another learner
- Fabrication of results and/or evidence
- Falsification (faulty data collection methods)
- Behaving in such a way as to undermine the integrity of the assessment event or process.
- Impersonation by pretending to be someone else in order to produce the work for another or arranging for another to take one's place in an assessment
- Engaging in unsafe practices
- Disruptive, violent and offensive behaviour
- Tampering or interfering with assessment materials or another learner's work
- Submission for assessment of a piece of work that has been purchased/procured from another source where the work is not the learner's own work.

2.2.2. Staff Malpractice

Staff Malpractice is defined as malpractice committed by staff relating to the assessment process.

Examples of staff malpractice include but are not limited to:

2.2.2.1. Serious Negligence

Serious negligence which results in failure to apply defined assessment processes, such as:

- negligence by any persons involved in the assessment process which causes (or is capable of causing) unacceptable loss, damage or injury
- failure to follow proper/required procedure
- failure to apply the correct assessment techniques as per the validated programme

- failure to ensure that no learner malpractice has taken place

and/or

2.2.2.2. Maladministration

Maladministration including any activity, practice or omissions which results in the centre or learner non-compliance with administrative regulations and requirements, such as:

- persistent mistakes
- poor administration
- failure to keep appropriate assessment records
- failure to provide secure storage of assessment related materials and evidence

and/or

2.2.2.3. Conduct of Assessment

The conduct of assessment with disregard for prescribed requirements, such as:

- Breaches of any secure material, including examination papers or materials and/or their electronic equivalents
- non-adherence to health and safety requirements, defined assessment procedures or rules, or not using defined equipment or tools
- use of unapproved personnel to conduct or assess an assessment
- unauthorised changes to examination timetables
- amendment of examination materials
- loss of required learner assessment evidence

and/or

2.2.2.4. Deliberate Action

A deliberate action that compromises the validity of the assessment process, such as:

- proven fraudulent activity in relation to the assessment process and/or the issuing of certificates
- manipulation/falsification of assessment data
- deliberate falsification of documentation, including assessment results or requests for certificates
- providing learners and/or other unauthorised personnel with access to a controlled assessment instrument or other information relating to the content in advance of an assessment event
- amendment to assessment papers outside the agreed protocol
- unauthorised obtaining, dissemination, or the facilitation of access to secure examination/assessment material
- undertaking any examination on behalf of learner(s)
- assisting or prompting learners in the production of answers to an examination question or assessment evidence, beyond that which is permitted
- any action which allows learners to have an unfair advantage
- failure to report any incident of suspected malpractice to the appropriate person

Assessment malpractice may be evident in either internal or external assessment processes.

3. Malpractice Roles and Responsibilities

3.1. All Staff

All staff involved in the assessment process, have a responsibility for ensuring the integrity and validity of the ETB assessment system. All staff must ensure that they are aware of policies and procedure in relation to:

- planning for assessment
- conducting of assessment
- conclusion of assessment

A person making an allegation of malpractice invoking the Protected Disclosures Act 2014 must follow the ETB's Protected Disclosures policy and procedures.

Additionally, all staff involved in the assessment process must ensure that the assessment process is conducted in line with quality assurance policies and procedures and that any variances in assessment system practices are investigated appropriately as outlined in this procedure.

3.2. The Manager

The manager (including the Centre Manager) is required to adhere to the role and responsibility outlined above for all staff.

3.3. The Programme Co-ordinator

The Programme Co-ordinator is required to adhere to the role and responsibility outlined above for all staff. Additionally, the Programme Co-ordinator must also ensure that all Learning Practitioners are made aware of their roles and responsibilities in relation to the assessment process. The Programme Co-ordinator must also ensure that Learning Practitioners are made aware of the policies and procedure in relation to the assessment process and the process of investigation of any suspected malpractice.

3.4. The Learning Practitioner

The Learning Practitioner is required to adhere to the role and responsibility outlined above for all staff. Additionally, the Learning Practitioner must be aware of the policies and procedures in relation to the assessment process.

4. Suspected Learner Malpractice Procedure

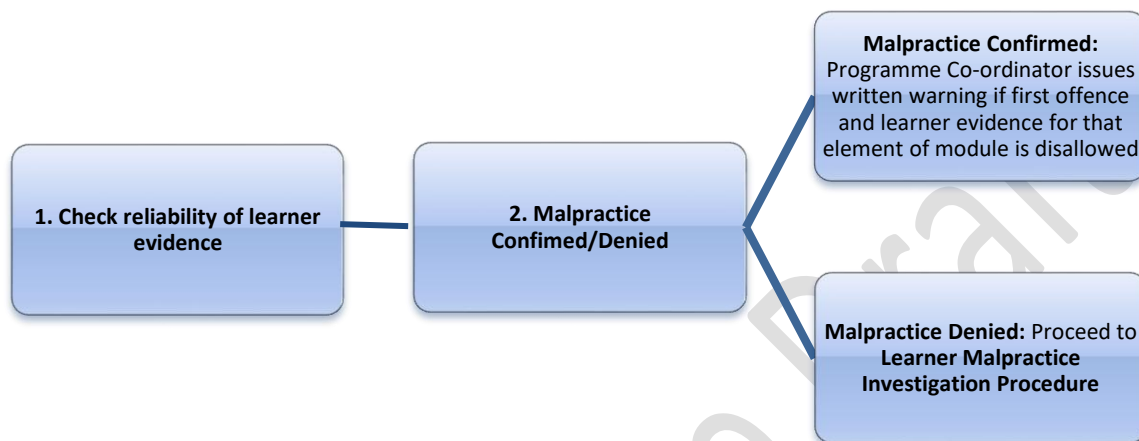

Figure 1.1 Suspected Learner Malpractice (Plagiarism) Procedure

4.1. Check Reliability of Learner Evidence

In the event of suspected learner malpractice, the Learning Practitioner must check the learner assessment evidence for reliability using the technique outlined in Table 1 and meet with the learner to discuss the assessment evidence.

Table 1: Reliability of Learner Evidence

Reliability of Learner Evidence	
Where the Learning Practitioner is not in a direct position to observe the learner carrying out the assessment activity or collecting the evidence first hand, e.g. when a portfolio or project is used, he/she must be confident that the evidence was actually produced by the learner, i.e. it is reliable learner evidence. This is particularly important when group assessment is used. The following are ways in which the Learning Practitioner may ascertain that the learner evidence produced is reliable and genuine. The Learning Practitioner should, where appropriate, implement a range of these.	
Questioning:	This involves asking the learner to explain and describe part of the evidence. It is important to concentrate on how the evidence was produced. This will enable the learner to show that he or she was responsible for producing the evidence and will also give the learner the opportunity to apply the knowledge and skills required.

Authorship Statement:	An authorship statement from the learner testifying the evidence as being his/her original work. An authorship statement could be provided with regard to all evidence submitted.
Personal Log:	This is a record of how the learner planned and developed the evidence. A personal log should identify problems and how they were overcome by the learner.
Personal Statements:	A personal statement may be used to explain the actions of the learner in carrying out activities or producing the evidence. Personal statements should be clear and explain the learner's role and the context in which the evidence was produced. Personal statements can provide evidence of knowledge and understanding.
Peer Reports:	Peer reports are especially suitable for group work. Peer reports are reports drafted by group members which can help explain individual involvement in a task or project.
Independent Testimony:	This is a statement produced by an individual other than the Learning Practitioner, which confirms that the learner has carried out a series of tasks or produced a product. It should record what the learner has demonstrated and corroborate the learner evidence submitted. The identity and role of the individual to provide the testimony for the learner should be agreed in advance between the Learning Practitioner and the learner. The use of independent testimony is not intended as a mechanism for assessing learner evidence but as a tool to corroborate the reliability of that evidence.

4.2. Malpractice Confirmed/Denied

4.2.1. Malpractice Confirmed

On completion of the checking of learner evidence and meeting with the learner, the learner may **acknowledge** that his/her assessment evidence has been plagiarised either by poor academic honesty or dishonestly. In this case, the Programme Co-ordinator issues a written warning if this is the learner's first offence within the Centre and learner evidence for that element of module is disallowed. Where this is a second offence, more serious sanctions will be applied.

4.2.2. Malpractice Denied

On completion of the checking of learner evidence and meeting with the learner, the learner may **deny** that his/her assessment evidence has been plagiarised either by poor academic honesty or dishonestly. In this case, an investigation must take place (see Section 5: Learner Malpractice Investigation Procedure).

5. Learner Malpractice Investigation Procedure

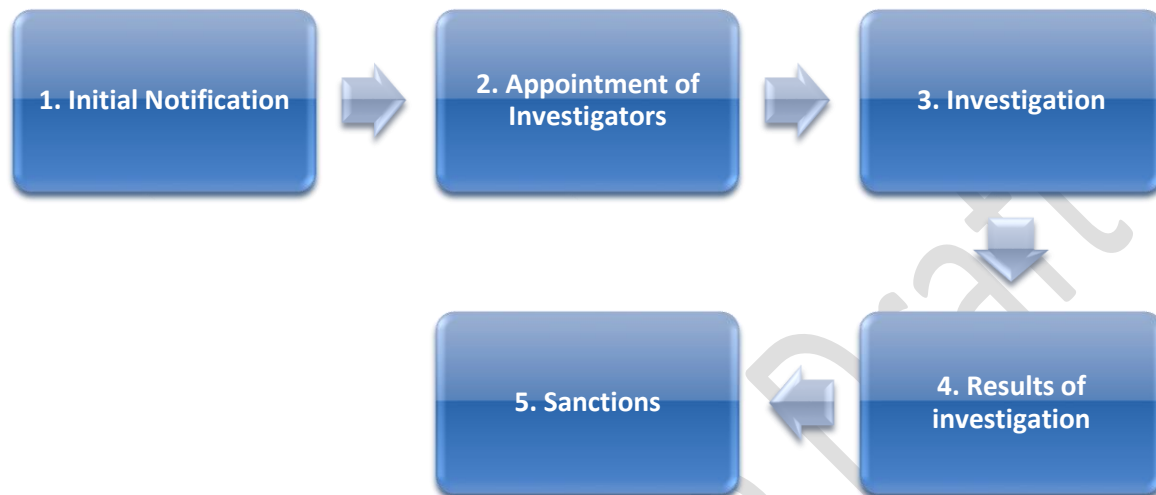

Figure 1.2 Learner Malpractice Investigation Procedure

5.1. Initial Notification

In the event of suspected learner malpractice in an assessment event (e.g. examination), this should be dealt with promptly by the Assessment Invigilator and in accordance with the Learning Practitioner Guidelines (Learning Practitioner Handbook). These instances must be recorded by the **Invigilators Report**.

In all cases where an alleged malpractice is identified, it must be notified to the Programme Co-ordinator and/or other personnel with responsibility for the operation of the programme. Notification must be in writing.

5.2. Appointment of Investigators

The Centre Manager will decide who should undertake the investigation in consultation with his/her senior management team. It is recommended that at least two staff members are involved in the investigation and should include the Programme Co-ordinator and a Learning Practitioner with assessment experience (unless there is a conflict of interest, see 5.2.1). The Centre Manager (or designated appropriate personnel) is required to co-ordinate the investigation. In certain cases, and in conjunction with the relevant Manager, a special investigation may be undertaken by:

- An external investigator
- Internal Audit

The Centre Manager must complete the ***Alleged Assessment System Malpractice Report Template*** (see **Appendix 1: Section 1: General**). It is important that only one report per learner is completed. If the alleged assessment system malpractice is suspected for more than one learner, separate forms must be used.

5.2.1. Conflict of Interest

Conflict of interest means any issue that might unfairly influence, or appear to influence, the outcome of an investigation. Possible Conflict of Interest relates to situations where personnel:

- Were engaged in any aspect of the assessment process (including quality assurance functions)
- Have a personal relationship or family relationship with the learner being investigated
- Have a professional relationship with the learner being investigated that may be perceived to unfairly influence the investigation process

This means that any person who has a possible conflict of interest should not be involved in any investigation or subsequent making of judgments.

The relevant Centre Manager shall be responsible for ensuring that a conflict of interest does not arise and that all members of an investigation panel sign a declaration to that effect (see Appendix 2). In cases where real or apparent conflict of interest is identified, alternative arrangements must be put in place.

5.2.2. Natural Justice

Those responsible for conducting an investigation shall establish the full facts and circumstances of any alleged assessment system malpractice. It should not be assumed that an allegation equates to proof of a malpractice. Any investigation into an alleged malpractice shall have due regard to the principles of natural justice. As such, it is necessary that those responsible for managing the conduct of any investigation must ensure adherence to these principles. This includes ensuring that:

- All investigations do not disadvantage the person against whom the allegation is made and are concluded within a reasonable timeframe (it is expected that this should be completed within a maximum of 40 working days in exceptional circumstances) from the date of the notification to the Centre Manager of the alleged malpractice
- The learners in question are made aware of the allegation and are given the opportunity to respond
- Care is taken to avoid conflict of interest (see Section 5.2.1)

The learner/learners against whom an allegation is made should therefore:

- Know what evidence exists to support that allegation

- Know the possible consequences should an assessment system malpractice be proven
- Have the opportunity to consider their response to the allegations (if required)
- Have an opportunity to submit a written statement
- Have an opportunity to seek advice (as necessary) and to provide a supplementary statement (if required)
- Be informed of the applicable appeals procedure, should a decision be made against him or her
- Be informed of the possibility that information relating to a particular malpractice may be shared with other relevant parties

5.3. Investigation

All notified alleged assessment system malpractices must be investigated.

5.3.1. Communication with Learner/Learners to be Investigated

The relevant Centre Manager shall be responsible for communicating in writing to the learner to be investigated, in relation to the alleged assessment system malpractice(s).

The initial communication shall:

- Provide notification that an allegation of an assessment system malpractice has been received
- Advise that the Centre Procedures for Managing Assessment System Malpractices contain full details of how the investigation will be conducted
- Emphasise that the investigation will be carried out in a discreet and confidential manner except in exceptional circumstances. Exceptional circumstances cannot guarantee this confidentiality as identity may need to be disclosed to:
 - An Garda Síochána, fraud prevention agencies or other law enforcement agencies (to investigate or prevent crime including fraud)
 - The courts (in connection with court proceedings)
 - Other person(s) to whom ETB and/or awarding bodies are required by law to disclose identity
- Avoid implying or suggesting that conclusions have already been determined or that decisions have been made in respect of the application of corrective actions

Note: Template for this communication (see Appendix 3).

5.3.2. Establishing the Facts within the Investigation

The investigating team should endeavour to obtain all the relevant facts about the alleged assessment system malpractice. This may be done through some or all of the steps outlined below:

- Review of allegation details

- Interview with the learner being investigated
- Interview with personnel and or management connected to the course, project or alleged malpractice
- Interview with learners connected to the course, project or alleged malpractice
- Interview with the other relevant parties
- Written statement(s) from the learner being investigated
- Written statement(s) from learners connected to the course, project or alleged malpractice
- Written statement(s) from personnel connected to the course, project or alleged malpractice
- Written statement(s) from other relevant parties
- Review of related assessment reports
- Review of previous learner record to seek to establish whether there has been **any** previous malpractice investigations previously for this learner/learners
- Other related records

5.3.3. Confidentiality

Confidentiality is a key aspect in the conduct of an investigation into an alleged malpractice, due to the risk of reputational damage to learners involved. In order to ensure confidentiality is maintained before, during and after an investigation, the following conditions should apply:

- Material relating to any allegations, findings or conclusions must not be made known to any parties, either internally or external to the Centre, beyond those key to the investigation
- It is not necessary to inform all learners being interviewed of the details of meetings with other parties unless there is a specific relevant matter to be raised
- The name or other details of the learner making the malpractice allegation should not be divulged to the learner/learners to be investigated without consent
- All material relating to the investigation must be held and stored in a secure manner. Material relating to a given investigation should be stored together on a single file. Each file should have a unique code to identify the investigation. Copies of electronic material should also be held with this file

5.4. Results of Investigation

5.4.1. The Investigation Report

Typically, the Investigation Report (**see Appendix 1: Section 2: Investigation Report**) that results from the investigation of an assessment system malpractice shall contain the following:

- Number of learners affected and/or implicated
- How the alleged malpractice was identified and notified to the relevant Centre Manager/Assessment Co-ordinator

- The nature of the malpractice and the specific assessment procedure(s) or assessment rule(s) or assessment regulation(s) that has/have allegedly been breached, as well as the award details
- Details of the scope of the investigation carried out
- The findings:
 - details of the procedure, rule and/or regulation that is alleged to have been breached
 - a statement of the facts as described by all parties
 - details of any mitigating factors.
- Conclusion (whether the malpractice allegation is substantiated or unsubstantiated)

The investigating team should not adjudicate on the report findings.

The report will be signed and dated by the investigating team. Any written statements, notes of interviews or other relevant documentation reviewed or obtained as part of the investigation must be filed separately and securely as part of the investigation process.

5.4.2. Report Findings Adjudication

The Investigation Report is submitted to the relevant Centre Manager. The relevant Centre Manager adjudicates on the report findings and notifies the person(s) involved in writing as to whether the allegation has been substantiated or not. Where the allegation is substantiated, the notification will include details of the appeal process in regard to the findings and the sanctions/consequences for this breach of the assessment malpractice. The Centre Manager must complete the Findings Adjudication and Communication of Findings (see **Appendix 1: Section 3: Findings Adjudication and Communication of Findings**).

5.4.3. Communicating the Results

The relevant Centre Manager is responsible for ensuring that the notification of the alleged assessment system malpractice investigation finding is communicated to the relevant learners within ten (10) days from the date of receipt of the investigator's report.

The finding of an investigation into an alleged assessment system malpractice may be:

- Unsubstantiated Assessment System Malpractice
- Substantiated Assessment System Malpractice.

Note: Template for this communication (see Appendix 4).

5.4.3.1. Unsubstantiated Assessment System Malpractice

If the assessment system malpractice is found to be unsubstantiated, the relevant Centre Manager will convey the findings of the investigation, in writing and within the timeline specified, to the learners(s) involved. A record of the investigation is kept on file.

5.4.3.2. Substantiated Assessment System Malpractice

Where the allegation is substantiated, the relevant Centre Manager will convey the findings of the investigation, in writing and within the timeline specified, to the learners(s) involved and should include details of the sanctions/consequences of the assessment system malpractice.

In addition, the notification to the person must also outline the Assessment System Malpractice Appeal process and the timeline in regard to the appealing the findings.

5.4.3.3. *Communicating the Findings to Other Persons*

In addition, the relevant Centre Manager will convey, as appropriate, the outcome of the assessment system malpractice investigation in writing to the relevant manager.

5.5. Sanctions for Assessment System Malpractice

Depending on the findings of an investigation and the outcome adjudicated, further steps, such as sanctions or disciplinary action, may be required.

5.5.1. Sanctions

Sanctions are dependent on:

- The severity of the malpractice
- History of substantiated assessment malpractice by learner in the centre (if, for example, findings from a previous investigation have evidence of substantiated assessment malpractice against the learner in the Centre)
- Nature of assessment activity

The following are examples of sanctions which may be taken (this list is not exhaustive):

1. Written warning and assignment is marked as zero and submitted

The learner is issued with a written warning by the Programme Co-ordinator.

The assignment is marked as zero and submitted.

The learner is also notified that if the offence is repeated once within the Centre, further sanctions will be applied.

It is envisaged that this will occur in the following instances (this list is not exhaustive):

- The learner has not submitted draft material for feedback earlier in the assessment process which may have highlighted the issue. The learner has submitted assessment evidence which has been plagiarised (e.g. poorly-referenced)
- The learner has plagiarised an element of a module (e.g. research element of a project (10%))

2. Evidence for the entire module marked as zero and submitted

Evidence from the learner is marked as zero and submitted.

3. Results will not be submitted, or will be cancelled (exceptional case)

The ETB may withhold or cancel results and/or certificates if there is evidence to prove, or on the balance of probabilities it is found, that the results/certificate(s) issued to the learner are invalid.

5.5.2. Communication of Sanctions to the Learner

If no appeal has been lodged, the relevant Centre Manager can proceed to notify the learner, in writing, of any sanctions being imposed.

The notification will include details of the Assessment System Malpractice Sanction Appeal process, including the timeline for an appeal of a sanction.

5.5.3. Implementation of Sanctions to Learners

If no appeal has been lodged, the relevant Centre Manager can proceed to implement the sanctions.

6. Appeals of Assessment System Malpractice Finding

The learner has the right to appeal the decision in relation to assessment deadlines. Appeals must be made within five (5) working days of the decision. In exceptional circumstances the Programme Co-ordinator may extend this. All appeals must be made in writing using the Appeals Assessment System Malpractice Application Form (see Appendix 5). The Appeals process is processed by the relevant line manager.

The grounds on which the appeal process can be activated are as follows:

- The alleged malpractice was not dealt with in accordance with procedures
- The regulations did not adequately cover the circumstances relating to the malpractice
- New information has become available that was not available to the investigation

7. Staff Malpractice Procedure

Where there are suspected cases of staff malpractice, it is the responsibility of Human Resources and senior ETB Management to process the investigation.

Declaration regarding Conflict of Interest

for Persons involved in the Investigation of an Alleged Malpractice with the ETB Centre Assessment System

Conflict of interest means any issue that might unfairly influence, or appear to influence, the outcome of an investigation. A conflict of interest for a person investigating an alleged malpractice with the ETB Centre assessment system shall be deemed to exist if the personnel:

- *Were engaged in any aspect of the assessment process (including quality assurance functions)*
- *Have a personal relationship or family relationship with the party being investigated*
- *Are perceived to have a professional relationship with the party being investigated that may unfairly influence the investigation process*

Where a conflict of interest exists, there can be no involvement in the investigation of the alleged malpractice, or the decision-making surrounding the outcome of the alleged malpractice.

Centre:	
----------------	--

This is to certify that, as far as I am aware, no conflict of interest exists in relation to my participation in the investigation of the above-mentioned Alleged Assessment System Malpractice.
